SPEECH COMPETITION

Introduction

The speech competition organized on the critical topic of Hepatitis and its precautions aimed to raise awareness and promote understanding about this widespread health concern. Students from various backgrounds came together to share their insights and knowledge on the subject.

Event Highlights

Participants delved into the intricacies of Hepatitis, shedding light on its various forms. The competition fostered a platform for exchanging valuable information and ideas on how to mitigate the risks associated with Hepatitis.

Judging Panel

Dr. Sunita Borkar, a distinguished expert in the field, served as the judge for the competition. Her presence added immense credibility to the event.

The poster is for a speech competition organized by the Microbiologist Society India (MSI) on the occasion of International Microorganisms Day (17th September). The event is part of the Micro Fest organized by the MSI. The competition is held on 7th September, 2023, via Google Meet. The topic is 'Speech Competition On Hepatitis and its Precautions Celebrating International Microorganisms Day (17th September)'. The poster includes logos of St. Xavier's College Ranchi (Affiliated To Ranchi University, Ranchi), Microbiologist Society India (Microbes For Better Tomorrow), and Department of Botany St. Xavier's College Ranchi. It also lists the rules of the contest, awards, and contact information for Ms. Preeti Kumari (+91 8102646083).

Speech Competition On Hepatitis and its Precautions Celebrating International Microorganisms Day (17th September)

Join us for a captivating Speech Competition as part of the Micro Fest organized by the Microbiologist Society India on the occasion of International Microorganisms Day.

7th September, 2023

Google Meet

Awards:- Winners will be awarded with Certificates of Merit and Participants with Participation Certificates.

- 1st position :- Golden Certificate of Merit
- 2nd position :- Silver Certificate of Merit
- 3rd Position :- Bronze Certificate of Merit

Rules of the Contest:-

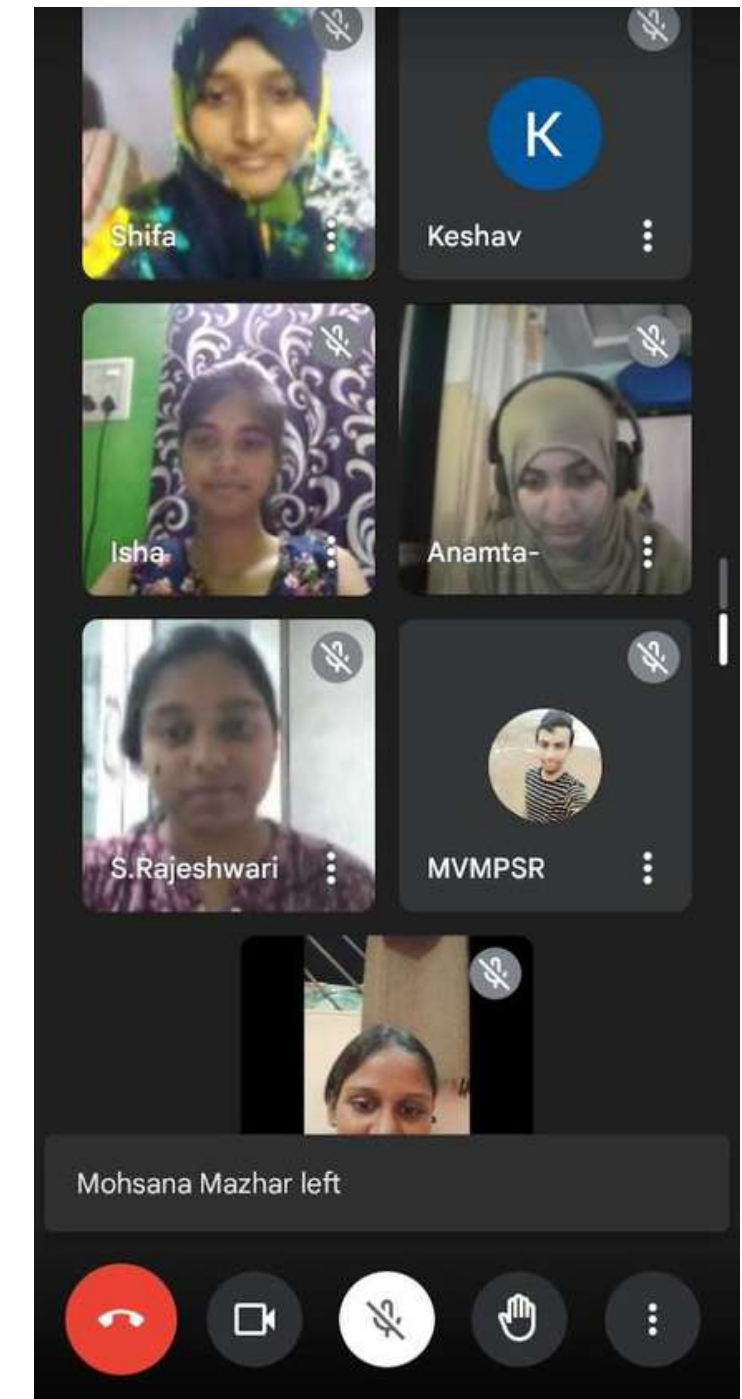

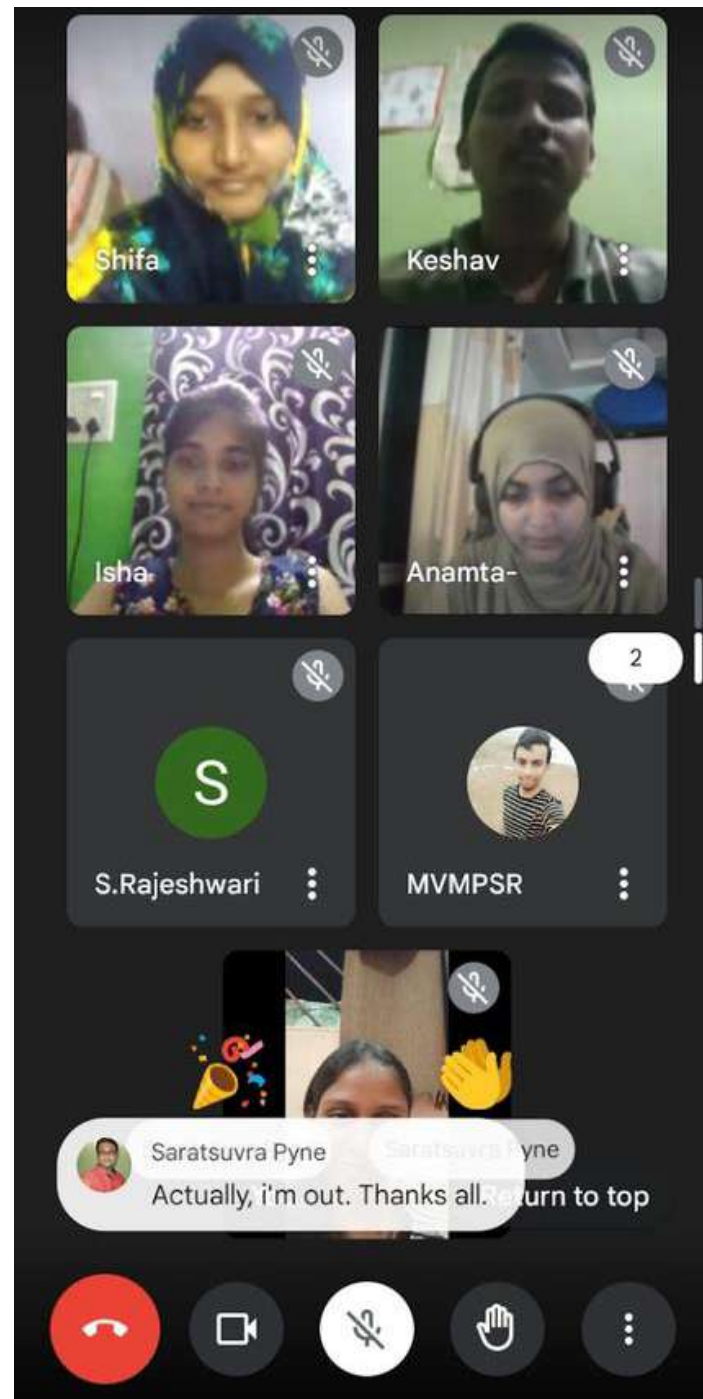

1. Participant must join the G Meet 15 minutes prior to the given time.
2. Speaker has to turn on the Microphone and Camera when giving the Speech.
3. There will 15 minutes of time to be given to each candidate to speak.
4. Participant cannot use any Presentation or Paper to speak.
5. No Microphone should be turned on when one is speaking.

Don't miss this opportunity to celebrate the significance of microorganisms and their impact on our world. Let your voice be heard at the International Microorganisms Day Micro Fest Speech Competition!

ART COMPETITION

Introduction:

The recently organized art competition on the intriguing theme of "Aliens on Earth" brought forth a wave of creativity and imagination. Students from diverse backgrounds enthusiastically embraced the challenge, presenting their unique interpretations through captivating artworks that explored the concept of extraterrestrial life coexisting on our planet.

Event Highlights:

Participants unleashed their artistic prowess, employing various mediums to depict the integration of aliens into earthly landscapes. The competition sparked discussions on the intersection of science fiction and reality, encouraging students to envision and portray scenarios where extraterrestrial beings seamlessly blended with our surroundings.

Judging Panel:

Dr. Priti Ashok Kharat, a respected authority graced the event as the judge. Her discerning eye and appreciation for the fusion of art and science added a profound dimension to the evaluation process.

The poster is for an art competition titled "ART COMPETITION On Aliens on Earth". It is celebrating International Microorganisms Day on 17th September. The event is scheduled for 8th September, 2023. The poster is open to all and includes a "REGISTER NOW" button. It lists the UPI ID as lizarana2002@oksbi, Account no. as 520101269434555, IPSC Code as UDIN0921165, and Name as Liza Rana. The rules of the event are: entries will be accepted till 8th September till 12 PM; the art should be in PNG format; art can be made digitally/handmade; it can be made using any pencil sketching, water colour, oil pastel, sketch pens, crayons or any other handmade forms and digitally using any suitable application like Canva, Microsoft Office, etc.; and entries should be sent to the given mail id only: preetikumariyadav0705@gmail.com. The entry fee is 100/-. The poster also features logos of St. Xavier's College Ranchi (Affiliated To Ranchi University), Microbiologist Society India (Microbes For Better Tomorrow), and the Department of Botany St. Xavier's College Ranchi. Contact information for more information is provided at the bottom: microbiosociety/jhk, MBSI JHARKHAND, and microbiosocietyjharkhand@gmail.com.

OLYMPIAD COMPETITION

Introduction:

The recently held art competition, centered around the captivating theme of "Different Aspects of Microbiology," provided a canvas for students to artistically interpret the invisible world of microorganisms. This event aimed to bridge the gap between science and art, encouraging participants to visually convey the diverse facets of microbiology.

Event Highlights:

Participants unleashed their creative energies, using a myriad of artistic mediums to illustrate various aspects of microbiology. From the intricate beauty of microscopic organisms to the technological advancements in the field, the artworks reflected the intersection of art and science in a visually stunning manner.

MEME MAKING COMPETITION

Introduction:

The recently organized meme making competition on the theme "One Microbe, Hundred Solutions" was a dynamic and humorous exploration of the vast potential that microorganisms hold in solving diverse challenges.

Event Highlights:

From clever captions to amusing visuals, participants ingeniously illustrated the multifaceted solutions that microorganisms offer. The competition provided a lighthearted yet insightful perspective on the myriad applications of microbes in areas such as medicine, environmental sustainability, and biotechnology.

Judging Panel:

Dr. Ram Suthar, an esteemed expert in microbiology, lent his expertise as the judge of the event. His keen eye for scientific accuracy and humor added a layer of depth to the evaluation process, ensuring that the memes effectively communicated both the scientific and entertaining aspects of the theme.

STUDENT'S PRESENTATION COMPETITION

Introduction

The student presentation competition on the compelling topic of "Viral Diseases" was a thought-provoking exploration of the impact of viruses on human health. Engaging and informative presentations were delivered by students who delved into the intricacies of viral diseases

Event Highlights

Participants displayed commendable research skills and presentation prowess as they covered a spectrum of viral diseases, ranging from common infections to emerging threats.

Judging Panel

Dr. Swapna Mukherjee and Ms. Richa Arora served as the judges for the event. Their combined knowledge and experience ensured a thorough evaluation of the presentations, encompassing both scientific accuracy and effective communication.

STUDENT'S PRESENTATION COMPETITION

DAY - 1 (TOPIC - VIRAL DISEASE)

Introduction

The student presentation competition on the compelling topic of "Viral Diseases" was a thought-provoking exploration of the impact of viruses on human health. Engaging and informative presentations were delivered by students who delved into the intricacies of viral diseases

Event Highlights

Participants displayed commendable research skills and presentation prowess as they covered a spectrum of viral diseases, ranging from common infections to emerging threats.

Judging Panel

Dr. Swapna Mukherjee and Ms. Richa Arora served as the judges for the event. Their combined knowledge and experience ensured a thorough evaluation of the presentations, encompassing both scientific accuracy and effective communication.

STUDENT'S PRESENTATION COMPETITION

DAY - 2 (TOPIC - ETHANOBOTANY)

Introduction

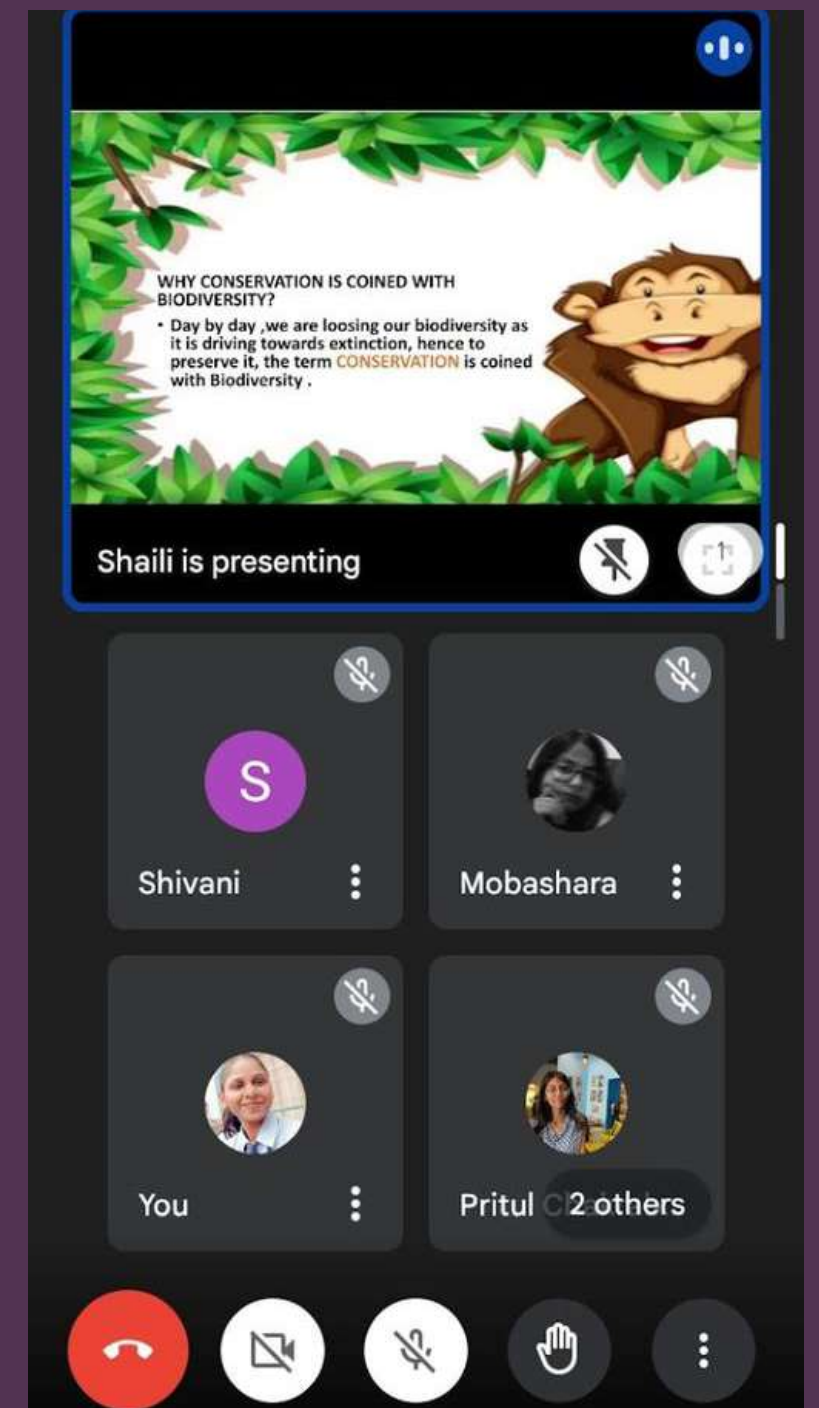

The student presentation competition on the captivating topic of "Ethnobotany" unfolded as an insightful journey into the intricate relationship between plants and human cultures. Participants showcased their research on the diverse uses of plants in traditional practices.

Event Highlights

Students presented compelling insights into the ways communities across the globe have utilized plants for medicinal, culinary, and ritualistic purposes. The competition not only highlighted the rich tapestry of ethnobotanical knowledge

Judging Panel

Dr. Sharmistha Ganguly, a distinguished expert in ethnobotany, served as the judge for the event. Her discerning evaluation provided participants with valuable feedback, ensuring a comprehensive assessment of the presentations in terms of scientific accuracy and cultural relevance.

STUDENT'S PRESENTATION COMPETITION

DAY - 3 (TOPIC - BIODIVERSITY AND ITS CONSERVATION)

Introduction

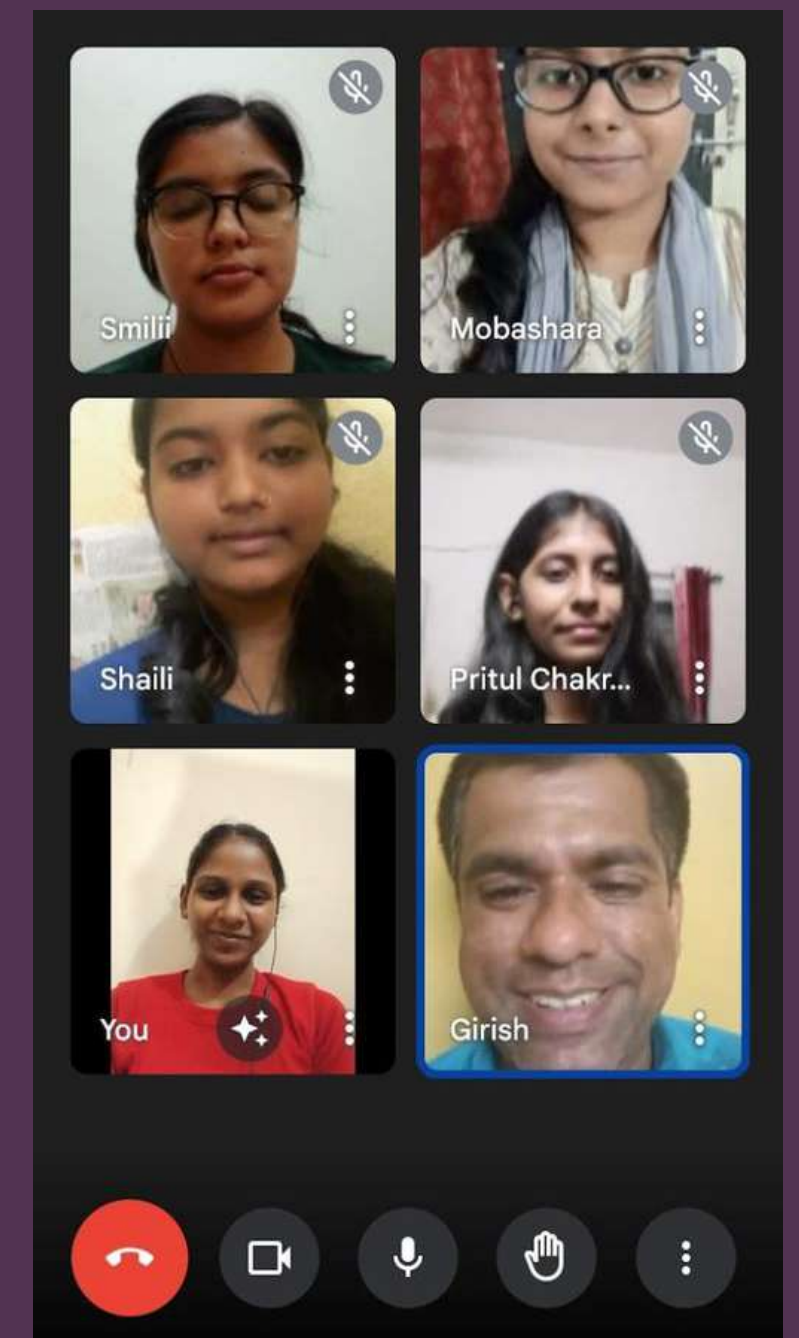

The student presentation competition on the vital theme of "Biodiversity and Its Conservation" provided a platform for students to delve into the intricate web of life on our planet. Presentations spanned a spectrum of topics, from the significance of biodiversity to the pressing need for conservation .

Event Highlights

Students exhibited a commendable understanding of biodiversity, emphasizing its ecological, economic, and cultural importance. The competition highlighted the richness of Earth's biological diversity

Judging Panel

Mr. Girish Kumar served as the judge for the event. His expertise ensured a thorough evaluation of the presentations, focusing on the depth of knowledge, clarity of communication, and the potential impact of the proposed conservation measures.

INTERNATIONAL WEBINAR ON INTERNATIONAL MICROORGANISMS DAY

Introduction

The International Webinar held on International Microorganisms Day served as a dynamic platform for knowledge exchange and collaboration, bringing together esteemed speakers from across India to share insights on the diverse roles of microorganisms in our world. The event aimed to celebrate the microscopic heroes that play crucial roles in various aspects of life.

Event Highlights

Distinguished speakers from diverse backgrounds presented on a wide range of topics related to microorganisms. The discussions spanned microbiology, biotechnology, environmental science, and healthcare, providing a comprehensive view of the multifaceted contributions of microorganisms to different fields.

EVENT HIGHLIGHTS

The International Webinar on Microorganisms brought together a myriad of resources persons, each offering unique expertise and perspectives on the microscopic world. The event aimed to provide a comprehensive understanding of microorganisms, exploring their roles in various fields and fostering collaboration among experts globally

Esteemed resources persons from diverse backgrounds delivered engaging presentations, covering a wide range of topics related to microorganisms. The discussions spanned microbiology, environmental science, biotechnology, and medical research, highlighting the versatility and significance of these tiny organisms

The international nature of the webinar facilitated a rich exchange of ideas, allowing participants to gain insights into the diverse research initiatives and practices in different parts of the world. The collaborative environment fostered networking opportunities and set the stage for potential future collaborations.

ORGANISING COMMITTEE

The Organizing Committee for the Micro Fest on International Microorganisms Day played a pivotal role in planning and executing a successful event dedicated to celebrating the microscopic wonders that contribute to diverse facets of life. Comprising dedicated individuals from various backgrounds, the committee ensured a well-coordinated and engaging celebration.

Through the collective efforts of the organizing committee, the Micro Fest successfully highlighted the importance of microorganisms and their impact on human health, the environment, and technology. The event garnered positive feedback from participants, speakers, and attendees, fostering a greater awareness of the microscopic world
